

# WELCOME

Welcome to this public consultation event, organised by Leiths (Scotland) Ltd. to present details of our development proposals, in respect of a proposed sand and gravel quarry at Craig Farm Estate.

Leiths (Scotland) Ltd are an Aberdeen based group of companies. The company is family owned and operated with in excess of 500 employees.

Leiths main business activities are in quarrying, civil engineering, concrete & asphalt production, agricultural lime and animal feed, road surfacing & road lining, architectural & decorative stone, and demolition & recycling.

The company's quarrying and related activities are primarily located in Aberdeen, Aberdeenshire, Moray and in the Highland region. Leiths have 14 quarries, 9 concrete batching plants and 7 asphalt production plants.

Leiths operate three quarries within Aberdeenshire and Aberdeen City. Hard rock quarries at Cove and Peterculter and a sand and gravel quarry at Parkhill by Dyce.

Today's exhibition presents details of our proposal for a new sand and gravel quarry. The quarry will primarily provide sand and gravel for our asphalt and concrete plants around Aberdeen.

Johnson Poole & Bloomer have been appointed to prepare the Planning Application on Leiths (Scotland) Ltd.'s behalf.

We thank you for attending today and welcome any comments you may have.
